

ATTORNEYS URGING APPOINTMENT SOON OF DISTRICT JUDGE

Corporation Counsel Conrad
Syme Among Those Advoc-
ated for Supreme Court.

Owing to congestion of business pending before the Supreme Court of the District, attorneys are hopeful that a successor will be appointed soon to fill the vacancy created by the death of Justice Thomas H. Anderson.

Much speculation is being done among attorneys regarding the man to be selected.

Appointment of Corporation Counsel Conrad Syme is being urged, and Attorney C. C. Tucker and Charles A. Keigwin are among the District legal fraternity advocates.

Assistant Attorney General Samuel J. Graham, who was detailed by the Attorney General to investigate and pass on applicants for other places, is being mentioned as a possible choice should the President go outside of active members of the District bar to make a selection.

William H. Hils, associated with the Department of Justice, as a special assistant, at the court of claims, and a District man, is said to have much support for the appointment.

Local Attorneys Urged.

C. C. Tucker and Charles A. Keigwin were both urged for appointment to the District Supreme Bench when President Wilson appointed Chief Justice C. C. Tucker and Charles A. Keigwin as associate justices.

McCoy and Siddons. Although no special effort has been made recently by their friends to urge them for the vacancy caused by the death of Justice Anderson, their indorsements are on file and available for reference by the Attorney General.

The only formal indorsements of candidates for the vacancy thus far received at the department are those favoring William H. Hils, a former assistant corporation counsel in the District, and J. M. Gudger, former member of Congress.

As a matter of fact there is no indication of a definite character at the Department of Justice that Attorney General Gregory, upon whose recommendation the President would rely, is actively considering himself with the vacancy.

Took Up Other Vacancies.

Two weeks ago he visited the President at Shadow Lawn, but is understood to have confined himself to matters connected with vacant judgeships in Ohio, Louisiana, and New Mexico and the pending vacancy in a Federal judgeship in Texas.

At the same time it is appreciated at the department that the vacancy on the District Supreme Bench should be filled as soon as possible, owing to the crowded condition of the court docket.

It is regarded as possible that the Attorney General may get behind the movement started among attorneys here to increase the size of the District Supreme Bench by adding two members. In this way, it is suggested, congestion in the business of the courts could be avoided.

Attorney General Gregory has under consideration the necessity of recommending a man to succeed Police Court Justice Fugate, who resigned his position at the same time that he proposed a man for the vacancy on the Supreme Bench.

Advocates of District candidates for the position point to the fact that the administration should appoint a Democrat whose home is in Washington. They declare that with the exception of Justice Siddons, no appointment in many years has been given a District resident.

In support of the contention that a Democrat should be given the post, notwithstanding the fact that the present five justices are of that political persuasion, it is pointed out that the Republican party has held the District bench during the period from 1897 to 1914.

Advisory Commission On Defense Is Named

President Wilson Designates Auxiliary Board to
Confer With National Council—Seven Mem-
bers Constitute New Body.

President Wilson, en route to Indianapolis, announced last night the appointment of members of the Advisory Commission to be associated with the Council of National Defense created by Congress at the last session. At the same time he gave out a statement saying he hoped the council would "become a rallying point for civic bodies working for the national defense."

The seven members of the new Advisory Commission are Daniel Willard, president of the Baltimore and Ohio Railroad; Samuel Gompers, president of the American Federation of Labor; Dr. Franklin H. Martin, of Chicago; Howard E. Coffin, of Detroit; Bernard Baruch, of New York; Hollis Godfrey, of Philadelphia; and Julius Rosenwald, of Chicago.

Has Aided Legislation.

Samuel Gompers, as head of the American Federation of Labor, has devoted much of his time in framing and promoting labor legislation. Among the laws he has championed were the eight-hour law, the Federal compensation law, exemption of labor unions from prosecution of combinations in restraint of trade, and the Federal responsibility for the creation of the national department of labor. He helped establish the National Civic Federation to establish relations between labor and capital. He has consistently refused to accept public office.

Bernard Baruch has been a member of the New York Stock Exchange since 1899, and is a member of its board of governors. He made his first million before he was twenty-one. His father was Dr. Simon Baruch. He is a graduate of the College of the City of New York and one of its trustees. He was one of the first to urge naval and military preparedness, saying, "If the country were in a position to defend what we now possess a period of prosperity unparalleled in history would be ours."

His wealth is estimated from \$20,000,000 upward.

Daniel Willard, president of the Baltimore and Ohio Railroad, was one of the railroad presidents who took a prominent part in the controversy between the railroads and the four brotherhoods that resulted in the passing of the eight-hour law.

Mr. Willard began his career on the Central New York and Ontario Railway. He has been a fireman, engineer,

conductor, trainman, mechanical foreman, yardmaster, and superintendent. He was mainly responsible for the Interstate Commerce Commission granting the railroads an increase of rates in 1912. He is a trustee of Johns Hopkins University.

Dr. Franklin H. Martin, one of America's greatest surgeons, was born at Oconomowoc, Wis., fifty-nine years ago. He is secretary general of the American College of Surgeons. At the outbreak of the war his niece, Miss Inez Stone, was in Munich, and Dr. Martin made a rescue trip from Holland to Munich and back by automobile. The chauffeur had the audacity to fly the German flag, a privilege; after the outbreak of war, reserved for royalty. Hundreds of officers saluted them on the way, and they were unimpeded until the Dutch border was reached, where the chauffeur was arrested for displaying the flag.

Career Is Varied.

Dr. Hollis Godfrey is president of Drexel Institute at Philadelphia. He has been in turn a business man, engineer and educator. He outlined a course in industrial engineering for the Society for the Promotion of Engineering Education, and has served as a lecturer and consultant in a number of educational institutions. Dr. Godfrey's conduct of the gas bureau of Philadelphia is well known. At the beginning of the Blankenburg administration, Dr. Godfrey was called into make a study of the organization and operation of the water bureau. He is the author of several books, one of which bears the title "The Men Who Ended War."

Howard E. Coffin was one of the two men designated by the Society of Automobile Engineers at the request of Secretary Daniels to become members of the naval consulting board. He is chairman of the committee on production, organization, and standardization. He was one of the pioneers in the automobile industry.

Julius Rosenwald is the president of Sears, Roebuck & Co., the big mail order house of Chicago. He is the president of the Associated Jewish Charities of Chicago and a member of innumerable bodies and committees dealing with civic, philanthropic and educational problems, among them the Chicago Peace Society. He is also president of the board of directors of the Chicago Bureau of Public Efficiency.

**SCHOOL ENROLLMENT
NOW TOTALS 53,707**

Enrollment for the public schools has passed the 53,000 mark and is still growing, according to figures just issued by school officials.

Central High School, with 1,992 students, has set a mark that a few years ago was thought impossible for a District school to attain. All the schools show an increase over enrollment of last year at this time, with one exception.

"Tech" has the second largest enrollment, with 1,174. Business is close behind with 1,116 registered. Eastern has 498 and Western 484 students now enrolled. The new Dunbar colored high school has the largest number of students in the colored high schools with 998. The Armstrong has 844 pupils.

There are 2,477 boys in the white high schools and 2,767 girls. Girls are also more numerous in the colored high schools, there being 1,039 girls and 544 boys. There is a total of 6,827 students in all high schools.

In the white graded schools there are 32,316 pupils. The colored grades accommodate 14,243. The grand total of pupils in the public schools of the District is 53,707.

**LOOK AT CHILD'S
TONGUE IF SICK,
CROSS, FEVERISH**

Hurry, Mother! Remove poisons from little stomach, liver, bowels.

Give "California Syrup of Figs" at once if bilious or constipated.

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach aches, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative"; they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages, and for grown-ups plainly on the label. Beware of counterfeiters and haves. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt—Advt.

PRINTERS IN FAVOR OF HALF-HOLIDAY

President of Union Declares It
Was First to Start Move-
ment for Government Clerks.

The Plate Printers' Union of the District is the organizer of the movement for a Saturday half holiday for Government clerks, and is the organization which, through its national affiliation, started the movement which has resulted in the proposition being given serious consideration by the President.

A statement to this effect was made today by John J. Deviny, president of the Plate Printers' Union, as a result of the published statement that the union was opposed to the Saturday half holiday. Mr. Deviny calls attention to the fact that a resolution adopted at the national convention of plate printers in San Francisco last November placed the Saturday half-holiday, which the plate printers employed at the Bureau of Engraving and Printing, emphatically on record as approving the Saturday half holiday plan.

Introduced Resolution.

The resolution was introduced at the convention by Mr. Deviny, acting as representative of the local plate printers. It was unanimously adopted, and by its terms the American Federation of Labor was instructed to utilize its forces to bring the matter to the attention of the President and the members of the Cabinet.

"I desire to state emphatically that the plate printers employed at the Bureau of Engraving and Printing are not opposed to the extension of the Saturday half-holiday, but have at all times favored the idea," states Mr. Deviny.

Attention of President.

"In fact, the present movement which is bringing the question to an issue, through bringing the matter to the attention of the President, is the result of a resolution introduced by the delegate of the International Plate Printers' Union at the convention of the American Federation of Labor in San Francisco, in November of last year."

The adoption of the proposed plan will result in an increased efficiency of service with resultant benefit both to the Government and the employee, and it is hoped that the President will take early and favorable action on the matter."

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.
